Total distance approx. 48 km (30 mi). Drive on RIGHT. Speed limit is 70km/hr.

1. Exiting the airport, drive SLOWLY past the guard post at the main gate and over the speed bumps. About 1 km along the airport access road take the first exit on the right (south), marked for **Bodrum**. (If you miss this turn and continue straight you will cross over the highway and be heading north toward Milas.)

2. Continue on **Highway D330** south toward Bodrum. There are **fuel stations** with snack shops a few km south of the airport. Eventually you will pass through the town of Guvercinlik, after which you will see the sea on your right. The road will become **curvy**.

3. Approaching Bodrum, at the bottom of a long hill is a major intersection with a turning to the right (west) marked for **Torba**. Do not turn, continue straight and climb the next hill. As you come over the crest you will see **Bodrum**, its castle, and the sea.

4. Continue downhill into Bodrum. You are now on **Kıbrıs Şehitler Caddesi**. Position yourself in the middle lane as you approach the first set of traffic signals (intersection with Cevat Şakir Caddesi). Continue straight to the second set of traffic signals (intersection with Nafiz Özsoy Caddesi), get into the left lane, and at the roundabout turn left downhill on **Nafiz Özsoy Caddesi**.

5. About 200 meters/yards downhill, take the second turning on the right, **Mars Mabedi Caddesi**, near a sign pointing to the right toward the **Özel Bodrum Hastanesi** (private hospital). This is a narrow street; sometimes there is not enough room for two lanes of traffic. You may have to wait your turn.

6. Continue to the hospital. The road into the hospital campus is barred, so bear right (north), then left (west) past a car-washing area on your right, then left again (south) to go around the hospital campus.

7. Take the next turning on the right, and in this area (intersection with Davut Sokak), look for a **place to park**, or wait and telephone the Su Otel (Tel +90 (252) 316 6906) for assistance with your luggage. The Su Otel is quite close, but only on foot: walk south down Davut Sokak, turn right on Turgutreis Caddesi, be careful of the **oncoming traffic**, and walk to tiny 1201 Sokak on the left. Follow the line of **blue tiles** (with fish) in the pavement to the Su Otel, near the end of this narrow, pedestrian-only cul-de-sac.
